## **Service Graphics Environment Policy, Issue 2**

Service Graphics, manufactures produces and distributes exhibition and display graphics for major blue chip organisations, covering a wide range of market sectors. This includes all deliveries and installation processes, with dedicated teams devoted to customer satisfaction.

The company recognises that in our day-to-day operations we inevitably have an impact on the environment but it is our aim to minimise, wherever practicable, the potentially harmful effects of our activities on the environment.

This environmental policy shows the company's continuous drive for quality in all of its activities, and enables us to set targets by which our efforts towards sustainable environmental improvement can be measured on a regular basis.

Service Graphics is committed to complying with and developing the ISO 14001 Environmental Management System to further improve its environmental performance. Service Graphics main objectives are:

- To comply with all environmental legislations as a minimum standard and to exceed these requirements whenever possible.
- Strive to continually improve the efficiency of its operations so as to; Minimise the use of energy and raw materials Minimise and, wherever practicable avoid the generation of waste
- Prevent pollution to the environment, with specific regard on minimising the emission of volatile organic compounds to the atmosphere.
- To ensure that all new products and activities have their environmental implications taken into account.
- To ensure that our suppliers and customers are aware of, and cooperate with our environmental aims.
- To support and encourage employees in developing and implementing working practices which are good for the environment.
- To be able to demonstrate continuous improvement in environmental performance and sustainability, through monitoring and statistical representation of the environmental performance

This policy has been communicated to all personnel within Service Graphics. Additionally, all other interested parties will have access to this document and the environmental manual.
