

### Alpha-S Specifications

The Alpha-S system is the ideal banner stand for both indoor and outdoor use. Despite its lightweight and minimal pack down size, the Alpha-S system produces stunning, free standing large displays. Using a single system, the banner size can go up to 4 metres tall, with a width of up to 3 metres. In addition, multiple units can be linked together, making this a truly versatile system. For increased stability when used outdoors, the bases may be water filled and for blustery conditions, a guy rope option is available.
