

## Technical Sheet

### Drive Up Display Specifications

This ingenious patented system composed of an electrical telescopic pole and a multi format advertising media.

The system enables a simple, rapid and safe advertising change in any indoor space, at any height. No more ladder or complex operations.

A sole operator changes the poster from the ground with the telescopic pole thus eliminating the need of ladder or cradle.

No electrical connections, wires or any kind of tools required, The telescopic pole renders all hanging and changing of posters.
