

### Vario D400 Pop Up Overview

If you require an instant display, the pop-up system is the easiest and quickest display solution currently available on the market. We are proud to introduce the first truly modular Pop Up display. The unique aluminum end caps not only allow for literature and product shelving but also digital displays and real exhibition structure. The lightweight aluminium frame pops up in seconds to form the structure on which seamless graphic displays are mounted. For convenient transportation, all panels and the pop-up fit into a tailor-made carrying case.
